

# CUTTING

## DIAMOND WIRE GUILLOTINE®

Wachs Diamond Wire Guillotine® pipe saw is designed to safely cold cut Steel, Ductile and Cast Iron pipe from 4-16in O.D. (DN100-400).

Motion of cutting media is limited by mechanical devices enclosed in the stainless steel housing, protecting the operator and preventing any uncontrolled movement of the tool for operator safety.

### Easy To Use

The light weight durable construction allows for quick and easy set up. Operation is easy with one person manual control. Choice of horizontal or vertical mounting. Connect directly to Wachs TM-7 or standard Class II Hydraulic Power Unit.

Diamond Wire Guillotine® pipe saw package comes complete with Diamond Wire, Shipping/Storage Skid, Water Delivery System, Operating Hand Tools and Manual.

### DW Guillotine®

- Cuts from 4in-16in pipe (DN100-400)
- Lightweight and portable, weighs only 75 pounds (34kgs)
- Quick and easy setup, one man operation
- Does not bind like traditional saws
