

Date: 20/06/ 2014

Sub: Performance Certificate

M/S Gemini Power Hydraulics had successfully installed Haulotte Optimum 8 Scissor lift .

We are using the scissor lift since September 2011 .

The lift we are using for our various Maintenance operations like Crane maintenance ,Compressed air line maintenance ,Overhead lamp maintenance ,cable laying etc.

Due to this scissor lift we have saved at least 10 to 15 % on our working man hours.

The other benefits like increase in safety culture of the organization is uncountable.

The people who are working at Height can perform their job with higher efficiency & with better accuracy.

We are getting efficient service back up from Gemini since last three years.
